MISSION STATEMENT

The Spokane County Medical Society exists to promote and provide leadership in the art and science of medicine. Furthermore, the Society strives to improve and preserve the health of the citizens in our community.

This is accomplished by:

- establishing and maintaining high ethical, educational and professional standards,
- providing services and benefits to aid members in their professional pursuits, enhancing goodwill, cooperation and unity among physicians,
- firmly advocating the public's best interest in matters of health and medicine,
- promoting and defending the physician's freedom to practice medicine in the patient's best interest and advantage,
- providing a forum for the interchange of thought, opinion and experience so as to enhance the fellowship and solidarity of the physician community, and
- initiate and joint-sponsor programs and seminars for Category 1 credit CME with a diverse number of organizations in the Spokane community and throughout the Inland Northwest.
